Symposium Objectives

- Describe the medical, economic, and societal burden of falls in older adults
- Identify evidence-based interventions that reduce the risk of falling in older adults and how these interventions can be implemented
- Identify resources available, such as the STEADI Toolkit, to help healthcare providers recognize and treat fall risks in older adults
- Describe risk factors associated with falls in older adults and what interventions are available to address them
- Describe strategies on how to implement screening for older adult falls into their clinical practice
- Describe inpatient hospitalization fall risk reduction strategies as well as extended care facility fall risk reduction strategies.

Continuing Education Credit

- **CME – Accreditation Statement**
The Ohio State University Center for Continuing Medical Education (CCME) is accredited by the Accreditation Council for Continuing Medical Education (ACCME®) to provide continuing medical education for physicians.
